

# What Are Corals?

**COLOR ME!**

Corals are made by tiny animals called polyps

Many tiny polyps make up one coral head

Corals come in many shapes, colors and sizes

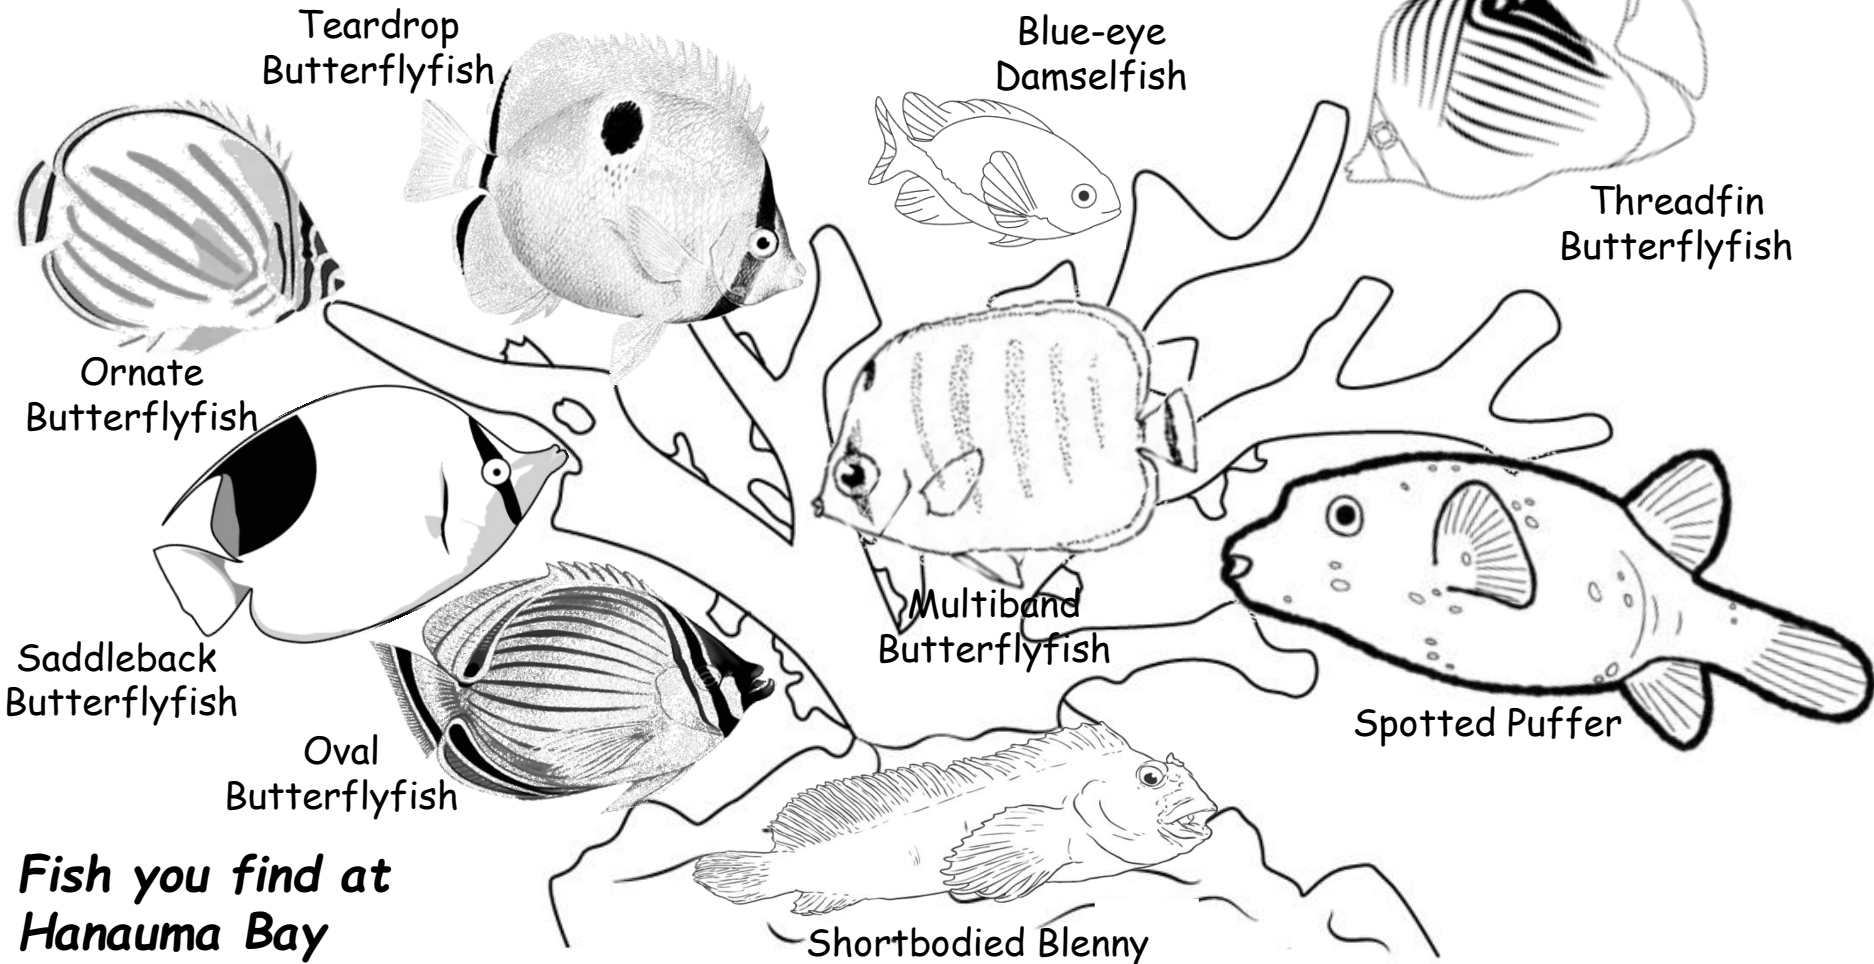

A tiny animal can build big underwater structures called coral reefs

# Why do Corals Matter?

**Color Me!**  
*Corals provide food*

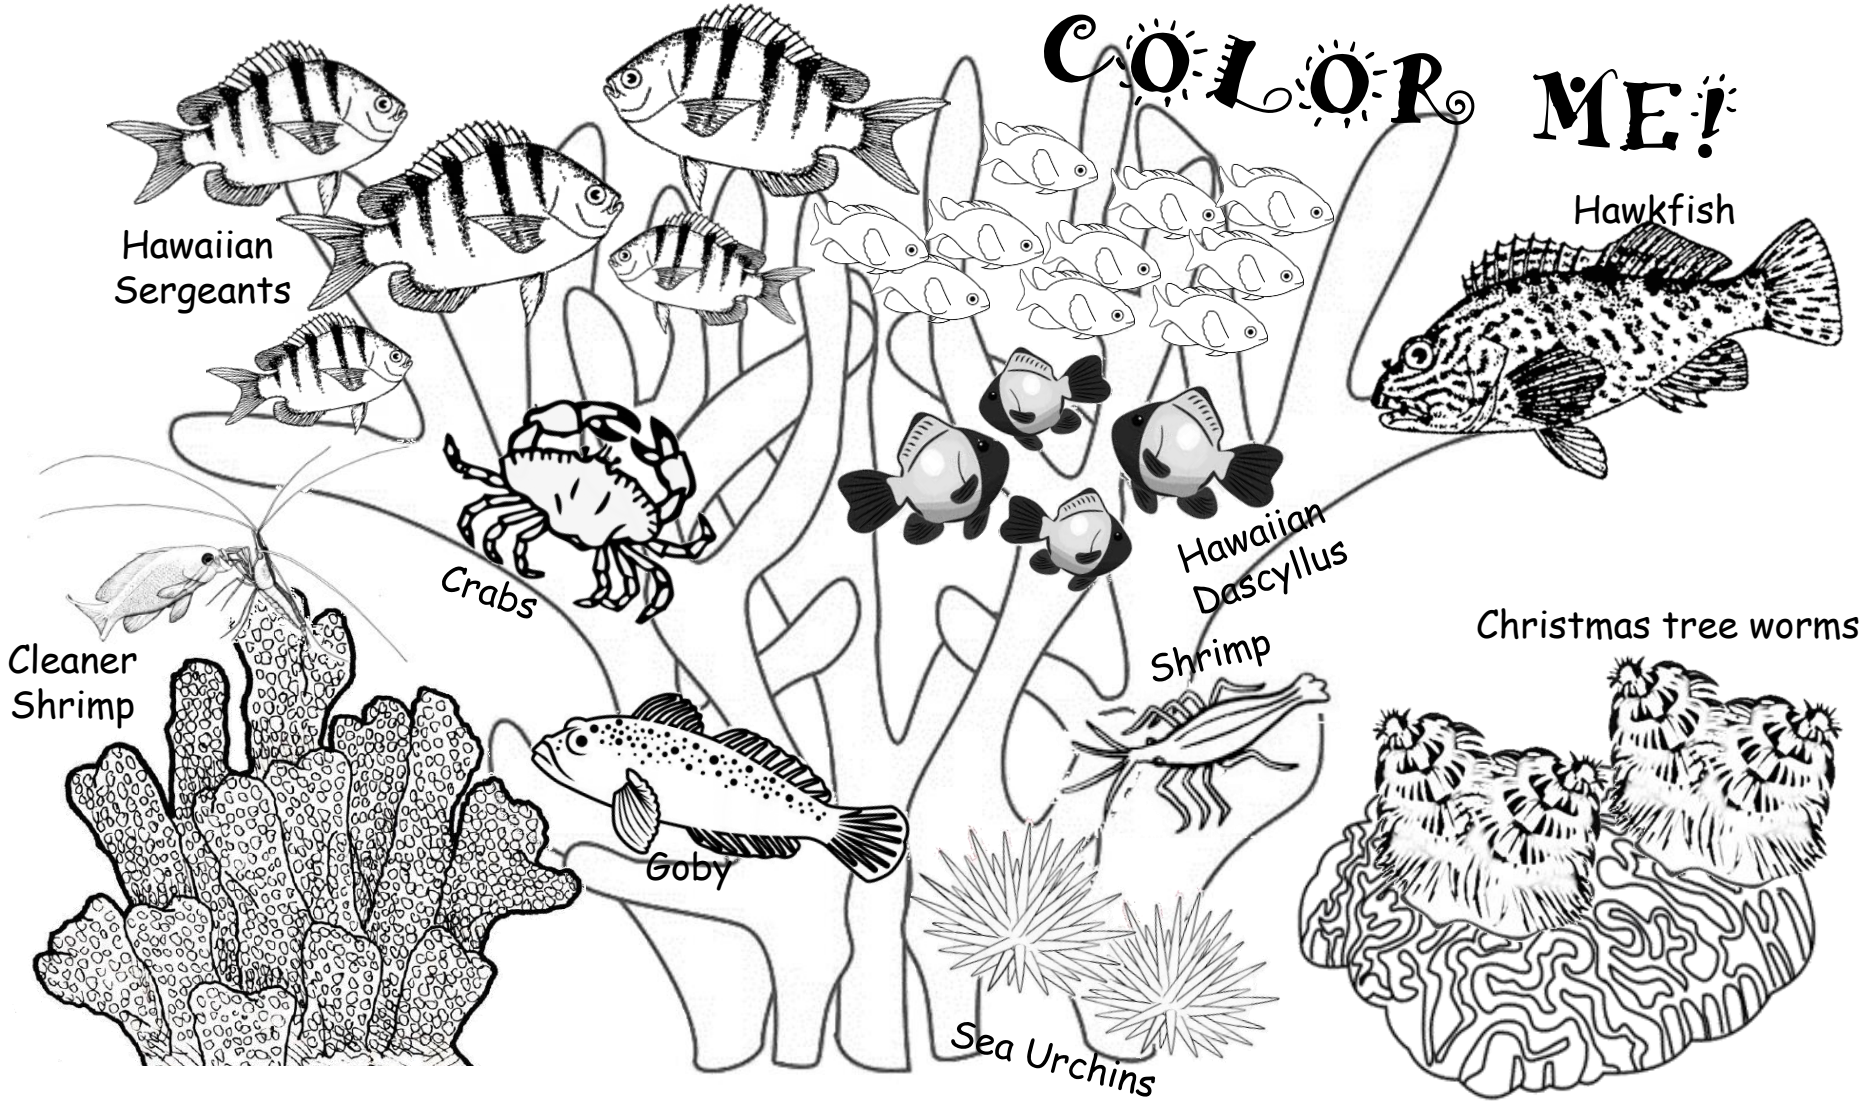

**Fish you find at Hanauma Bay**

# Why do Corals Matter?

## Corals Provide Shelter - Who lives in Coral Condos?
